

14.1.8

10a (*דוכננות דלא לדדה*) → 11a (*איתמר*)

Note: regarding debts, land becomes collateral for the amount owed; this is true for loans, torts and other obligations – such as **כחובה**. Land is graded in to 3 types: **עדית** (the finest), **זיבוחית** and **ביננית** (the worst). Clearly, it is ideal to collect from **עדית** – it involves taking superior, likely arable land and less of it. As such, obligations which are **זיבוחית** (e.g. *נמיין*) attach to **עדית**, whereas obligations which are **ביננית** attach to **ביננית**. Then, there are all sorts of added considerations which may move the status to or from one to another and to **ביננית**. The central discussion of this topic is in the 1st chapter of **בבא קמא**.

- 1. אם פאו ימא אביה לחתה לו פסוף ישל בקמאר מכתולת: שמות פרק כב פסוק ח
- 2. חזק משורר תאנט לא נקרו בחוצאת אפר עזם כל עצם בש קהן: אללה פרק ז פסוק ח
- 3. ושם הנבר השליש חקל הוא ההקל קומת אשור והנבר הרבעי הוא פרת: בראשית פרק ב פסוק י
- 4. תלמידה רווה נתת זוויה ברביבים ומגינה צמחה תברך: תללים פרק סה פסוק יא

I Status of כתובה

- a פתח כתובה מצאתי **חכמים**: שמואל established and gave him credibility to claim
 - i **Challenge**: what did they gain through the **תקנה**?
 - ii **Answer**: we assume he won't engineer a marriage he intends to torpedo ("he won't make a feast for naught")
- b **Observation**: since **מד"ס** is כתובה, she only collects from **זיבורית** (see note)
 - i **Dissent**: claims that **רשב"ג** disagrees with **חכמים**'s appropriation of v. 1 to "support"
 - ii **Challenge**: **רשב"ג** disagrees with **רשב"ג**'s observation: 2nd משות in משות ברייתא is in error, (final משות in משות ברייתא clearly supports the position that כתובה מה"ת is כתובה בתרופה)
 - iii **observation**: 2nd משות in משות ברייתא is in error, (final משות in משות ברייתא clearly supports the position that כתובה מה"ת is כתובה בתרופה)
 - 1 **Answer1**: the opinions in that should be inverted
 - 2 **Answer2**: the entire אלמנה is כתובה בתרופה – who avers that **רשב"ג** is ברייתא is not

II Case Law: claims of **דמים** and **פתח**

- a **Case1**: ר' נחמן accepted claim of **פ'**, but flogged the claimant, questioning the source of his expertise
 - i **Alternatively**: he wasn't believed, and only a previously married man is believed (and not flogged)
- b **Case2**: ר'ג suggested that perhaps the groom had had (intentionally or otherwise) and therefore "found" a **פ'**
- c **Case3**: ר'ג ברבי had a **חנן** come before him with **טענות בתולים**. He had the woman washed and found drops of blood.
 - i **Note**: cannot be done where they use strong detergents, as that will wash the blood away
- d **Case4**: ר'ג ברבי had a **חנן** come before him with **טענות דמים**. He performed "barrel test" & proved her to be a **בתולה**.
- e **Case5**: ר'ג חזון had a **חנן** come before him with **טענות דמים**. Her counter-claim: she was from "bloodless" family.
 - i **Note**: this is not a blessing (even though they don't have to worry about **נדחה**), since blood generates fertility
- f **Case6**: ר'בι had a **חנן** come before him with **טענות דמים**. He saw that they were emaciated from hunger, ordered them bathed and fed and he found **דם** – **רבי** applied v. 2 to them

III כתובה: **משנה ב**

- a **200 – בתולה**
 - i **טענות בתולים** – **איירוסין** and **חולוצה** from status of **divorcee** or **widow** can be claimed
- b **100 – אלמנה**
 - i etymology of **אלמנה** – that the rabbis will eventually grant her **1 mana**.
 - ii Example of verses written in **תורה** appears in **אלמנה** (בראשית לח:יא) referring to later events (v. 3)
 - iii Several other etymological homilies:
 - 1 מטר (v. 4)
 - 2 מזבח
 - 3 תמיiri
 - 4 דשא
 - 5 דרגא
 - 6 פוריא
 - 7 איילונית
