נסכים mixing משנה ד

- a Permitted: to mix נסכי אלים with נסכי with עכל or of various קרבן, of private קרבן with public, today's with yesterday's
 - קרבנות of various חלבים Challenge: v. 1 → may not mix קרבנות
 - 1 Answer1 (ד' יוחנן): our משנה is a case of בדיעבד (if mixed valid)
 - (a) Challenge: 2nd clause (below) is בדיעבד (if already mixed − valid) → 1st clause is לכתחילה
 - 2 Answer2 (אביי): means if the oil/flour were mixed, the wine may be mixed לכתחילה
 - (a) Block: wine may be mixed לכתחילה (per ברייתא)
 - לכתחילה Answer2 (modified): if oil/flour were already burned (separately), wine may be mixed
 - (a) But if: not yet burned, if oils/flours mixed, wine may be mixed; if not may not be mixed
 - (b) Reason: concern that if we allow mixing of wine, they will לכתחילה mix oils/flours
- b Prohibited: אילים or אילים (different ratios of oil to flour)
 - i But if: they were mixed separately permitted; if not yet mixed מסולות
- מ Note: the lamb brought with the עמר (v. 2) had double flour but "single-oil" (לוגין 3)
 - i ברייתא: v. 2 establishes double-flour, single-wine (1 ברייתא; v. 2 establishes double-flour).
 - 1 Meaning: read נסכו (ref. to wine) but written מנחה (ref. to to מנחה)
- II Tangential ruling by אשם מצורע 'ז: if an שלא לשמו was slaughtered שלא לשמו, must still be brought with נסכים,
 - a Else: it is invalid (there is no אשם מצורע without נסכים, and it has no other identity)
 - b Challenges: lamb brought with עמר, if נשחט שלא לשמו, must still have double-flour else it is מטול else it is
 - i And: מערכה if , if משחט שלא לשמו, must still be brought with 2 boards (for מערכה) by one בסול else it's מערכה
 - ii And: תמיד של בה"ע, if נשחט שלא לשמו , must still be brought with 2 boards (for מערכה) by 2 else it's פסול
 - *Answer*: indeed these are all true
 - i Challenge: then why did אשם מצורע as his example?
 - ii Answer1 (אב"י): he just selected one example
 - iii Answer2 (נשחט שלא לשמו); if the obligation can't be met (נשחט שלא לשמו), can be brought as מנחה (no need for אשם מצורע, double-flour מנחבה etc.); but אשם has no נדבה, if not אשם מצורע, has no place
 - iv Note: אשם מצורע supporting אשם מצורע as the example or sole application)
- III משנה ה: style and sanctity of measuring vessels in מקדש
 - a Rule: all vessels were מחוק) (heaped) except for that used to measure עשרון for לעשרון it was heaped inside
 - i Challenge: according to מחוק , there was only 1 מחוק; according to רבנן only one and מחוק
 - ii Answer: this is authored by מדידות, means that the measuring was done as מדידות (read מדידות)
 - b Backsides:
 - i קודש all backs/rims etc. of liquid measures were קודש (anointed in/out); of dry measures were חול (anointed in)
 - ii τ ירוצים חול all liquid measures were sanctified בירוצים קודש; all dry measures were בירוצים הול
 - iii ווquid moves around (spills over) → בירוצים are holy; dry (flour) doesn't move around → not קודש
 - 1 אייסי. they were anointed on the inside, but since the liquids spill over, they come from sanctified vessel
 - 2 Challenge: if they moved out, that liquid was not included in the intent of the אקדש why is it ?
 - (a) Answer1: this supports notion that מקדש against intent of מקדש against intent of שלא מדעת) (שלא מדעת)
 - (b) Answer2 (מקדש מדעת): even if they are מקדש מדעת; prevents onlookers from thinking מוציאין מכלי שרת לחול
 - (c) Challenge: if משבת didn't have 2 שלחן on שלחן, we leave them there until next שבת שנת
 - (i) But: aren't we concerned that onlookers will think that we may use כלי שרת as "storage"?
 - (ii) Defense: we don't have onlookers inside מנחות; מקדש are measured outside
- IV Discussion: שקלים ד:ד rules that surplus libations go to קיץ המזבח
 - a בירוצי מדות the "surplus" is ר' חייא בר יוסף.
 - i Supporting פסלו ברינה are used for other נפסלו בלינה; if not used for קיץ המזבח redeem and buy meat goes to כהנים , pelt to כהנים
 - at a set price and the market dropped נסכים. the "surplus" is in that case where someone committed to supply הי יוחנן.
 - i Ruling: he must supply at his original amount (if price went up must "upgrade" in kind יד הקדש על העליונה)
 - ii Supporting ברייתא. if someone commits to provide at a set price etc. and that is the referent in שקלים ד:ר
